

PANEL I: Full Spectrum of Fintech Technology in CSD Area

Rhodri Preece-Jones

Vice President, Market Technology Product Engineering
Nasdaq

Rhodri leads a number of engineering teams at Nasdaq delivering technology both to Nasdaq's internal markets, but also to Nasdaq's market technology customers.

During the 18 years Rhodri has been at Nasdaq, he has worked with clients from all parts of the globe covering all aspects of the financial ecosystem. In the last few years he has led the team that has developed Nasdaq's CSD solution while also leading initiatives around Nasdaq Financial Framework – with a focus on ledger technology.
